#### FEATRURES

- Width 65mm fits more forms of cycling and keep riding in great stability;
- Deep section (34mm) can make fat bikes be used for more aggressive cycling forms;
- Deep channel will help you easily install and take off a tire;
- Small bead socket makes the tire lock tightly and runs tubeless perfectly;
- Aero roof surface (triangle-like shape) will easily shed the dirt and mud better to release weight;
- Section of triangle's inherent feature of stability on rim design keeps rim in strong performance.
